OBJECTIVE

A motivated Civil Engineering final-year student seeking an entry-level opportunity or internship to apply academic knowledge in construction planning, site supervision, and structural basics while gaining practical industry experience.

SKILLS

Technical Skills: AutoCAD, Quantity Estimation, Surveying, Construction Planning, Building Materials, Concrete Technology, Strength of Materials, Engineering Drawing

Core Subjects: Structural Analysis, Geotechnical Engineering, Transportation Engineering, Environmental Engineering, RCC Basics

Software Skills: AutoCAD, MS Excel, MS Word

Behavioral Skills: Teamwork, Communication, Time Management, Problem Solving

EDUCATION

Government Engineering College Kaimur

Bachelor of Technology in Civil Engineering (CGPA: 6.26)

2022 – 2026

Patna, Bihar

INTERNSHIP

Bihar State Building Construction Corporation Ltd (BSBCCL) | PIU–Patna | Dec 2025 – Jan 2026

- Completed winter internship on various running construction sites under BSBCCL supervision.
- Assisted in site supervision, quantity estimation, and execution of civil works.
- Observed construction activities including material handling, layout marking, and quality checks.
- Gained exposure to government project procedures and site documentation.

Building Construction Department | Bihar – Bhabua, Kaimur | Site Engineering Intern June 2025–July 2025

- Completed **4-week** vocational training on **student hostel building construction**.
- Assisted in site supervision, quantity estimation, and execution of civil works.
- Gained exposure to government construction procedures and project documentation.

AutoCAD Drafting Intern | Desinzidea – Online / Remote

Dec 2023 – Jan 2024

- Created 2D floor plans, elevations, and sections for residential projects.
- Worked on AutoCAD 2D drafting including dimensioning, scaling, and plotting.

PROJECTS

Integrated Groundwater Quality Assessment using Entropy-Weighted Water Quality Index (EWQI) and Risk Assessment: | Rohtas, Bihar | Academic Project

- Assessed groundwater suitability for drinking and irrigation purposes using EWQI method.
- Collected and analyzed groundwater samples from selected locations in Rohtas district.
- Evaluated key water quality parameters and performed basic health risk assessment.
- Studied impacts of agricultural and urban activities on groundwater quality.
- Gained practical understanding of environmental engineering concepts and water quality analysis.

Construction of Student Hostel Building | Bhabua, Kaimur (Bihar) | Field Training Project

- Worked on construction of student hostel buildings at multiple sites during field training.
- Assisted in site supervision, quantity estimation, and material handling activities.
- Observed building layout marking, foundation work, RCC activities, and finishing works.
- Learned practical aspects of execution and supervision of civil engineering works.
- Learned practical aspects of execution and supervision of civil engineering works.

CERTIFICATIONS

- Winter Internship Certificate** – Bihar State Building Construction Corporation Ltd (BSBCCL), PIU Patna
- AutoCAD 2D/3D Certification** – Desinzidea / Skill Darpan
- NPTEL Certification** – Earth Science.

ACHIEVEMENTS

- Successfully completed winter internship at Bihar State Building Construction Corporation Ltd (BSBCCL), PIU Patna.
- Willingness to learn and adapt to site working environments.

LANGUAGES

- Hindi, English
